# iT1's Cloud Readiness Assessment

Move to the Cloud with Confidence

An **iT1 Cloud Readiness Assessment** provides you with a realistic and achievable migraiton plan. We'll help you make informed decisions to plan your move to the Cloud. Our team will **review and analyze your current IT inventory, determine which are compatible to move to the cloud, identify server dependencies**, and perform **financial modelling based on real-world usage and cost**

BUSINESS DEMAND

- Organizations may not have or know where to begin with creating a cloud strategy.

- Customers may not understand cloud features, compatibility of workloads, and the long-term.

- Managing an on-prem environment can increase operational and IT spend and challenges.

OUR SOLUTION

- Provide you with accurate data to make informed decisions.

- Allows you to implement polices to govern cloud spend, consumption, and security.

- Eliminate resource constraints.

ASSESSMENT PROCESS & DELIVERABLES

Initial Discovery
Q & A, strategic alignment, and business objectives

▶
