# Decommissioning Services
## Simplify Your Transitions

If your organization is closing a office or decommissioning a data center due to relocation or a move to the cloud, iT1 can help. These complex projects require expert planning and execution to minimize disruption, ensure security, and maximize value.

iT1 takes the guesswork out of your site closure and data center transitions with a comprehensive suite of services designed to meet our clients needs. We bring unparalleled expertise and proven methodologies to ensure a smooth, cost-effective, and secure transition for your business.

## Benefits of Partnering with iT1

**Reduced Costs**
Eliminate the need for internal resource allocation and capital investments.

**Minimize Disruption**
Maintain business continuity with minimal downtime and service interruptions.

**Increased Efficiency**
Focus your IT team on core initiatives while iT1 handles the transition.

**Reduced Risk**
Mitigate operational and compliance risks with our expertise and best practices.
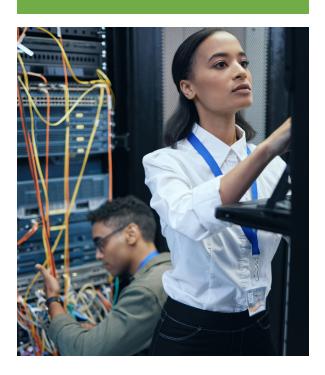

**Enhanced Security**
Ensure the highest level of data protection during the entire process.

**Maximize Value**
Recover residual value from your assets through remarketing, redeployment, and responsible recycling.

# iT1 Decommissioning Services

### Inventory and Appraisal
- Gain a clear picture of your assets with detailed inventory reports and accurate valuations
- Make informed decisions about redeployment, remarketing, or recycling

### Server Decommissioning and Shut Down
- Provide data backup and migration by transferring critical data to designated storage
- Trained technicians safely disconnect hardware and pull cables

### Data Eradication
- Safeguard sensitive data through certified data erasure or physical destruction
- All data eradication is backed by a Certificate of Data Erasure and Destruction providing assurance of full data destruction

### Redeployment and Lease Return
- Evaluate and redeploy equipment internally to extend its useful life and reduce costs
- Handle lease returns efficiently, ensuring compliance with contractual obligations

### Remarketing
- Sell surplus equipment on the secondary market, generating additional revenue streams
- Benefit from iT1's expertise in market analysis and pricing strategies to maximize return

### Logistics
- Manage the complex logistics of equipment transportation, ensuring safe and efficient delivery
- Utilize our network of partners and robust tracking systems for complete visibility

### End-of-Life Disposition
- Stringent requirements are followed throughout the certified disposition process to ensure e-waste is processed responsibly to minimize environmental impact
- Comprehensive reporting to ensure documentation requirements are met and compliance is achieved throughout the disposition process

### Project Management
- Dedicated project managers oversee every aspect of your transition, ensuring seamless execution and clear communication
- Benefit from iT1's experience in mitigating risks, managing contingencies, and delivering on time and within budget
