

Get the best experience with your communications platform

If you've ever had to deal with crackly sounding headphones, you'll know that not all devices are created equal. While many devices will work with virtual meeting platforms, certified devices have been put through rigorous third-party testing to prove that they work seamlessly with specific platforms.

When you buy a Jabra certified device, you can be confident that you'll get the best user experience possible with your chosen platform.

**ENSURE COMPATIBILITY**

Many people mistakenly believe that all devices come with platform certifications included as standard

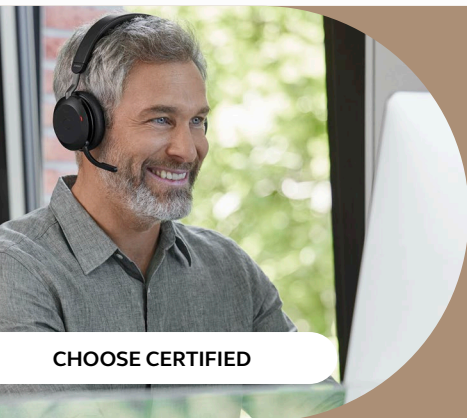

27% of business headsets are bought specifically to work with a new virtual platform

But only 23% of business buyers look for specific platform certifications when buying a new headset

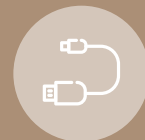

Only certified products can use the official "certified for" logos

**CHOOSE CERTIFIED**

A certified product has passed rigorous independent testing and is proven to meet each platform's stringent technical requirements

A certified product delivers the best user experience, with seamless connection and easy use of all the platform's features

Certification confirms that the device delivers impressive audio and/or video quality for both the user and those they collaborate with

Our Microsoft Teams certified devices feature an integrated Teams button for a deeper, more productive Teams experience
