

Empower Learners, Streamline Programs, Drive Results

Accountability and Achievement in Correctional Education

Empower Learners, Teachers, & Program Directors

"One of the most significant benefits is Nucleos's ability to consolidate multiple educational platforms into one coherent system. This has simplified the user experience for our clients and staff."

Gain Data-Driven Insights

"Nucleos understands the importance of accountability and data-driven decisions. Their platform's reporting capabilities have enabled us to track utilization of the different applications, and report out with precision."

Enhance Security & Maintain Compliance

"Not only is it access and opportunity we are excited about, but it also relief knowing that the devices are secure"

What We Do

Consultation

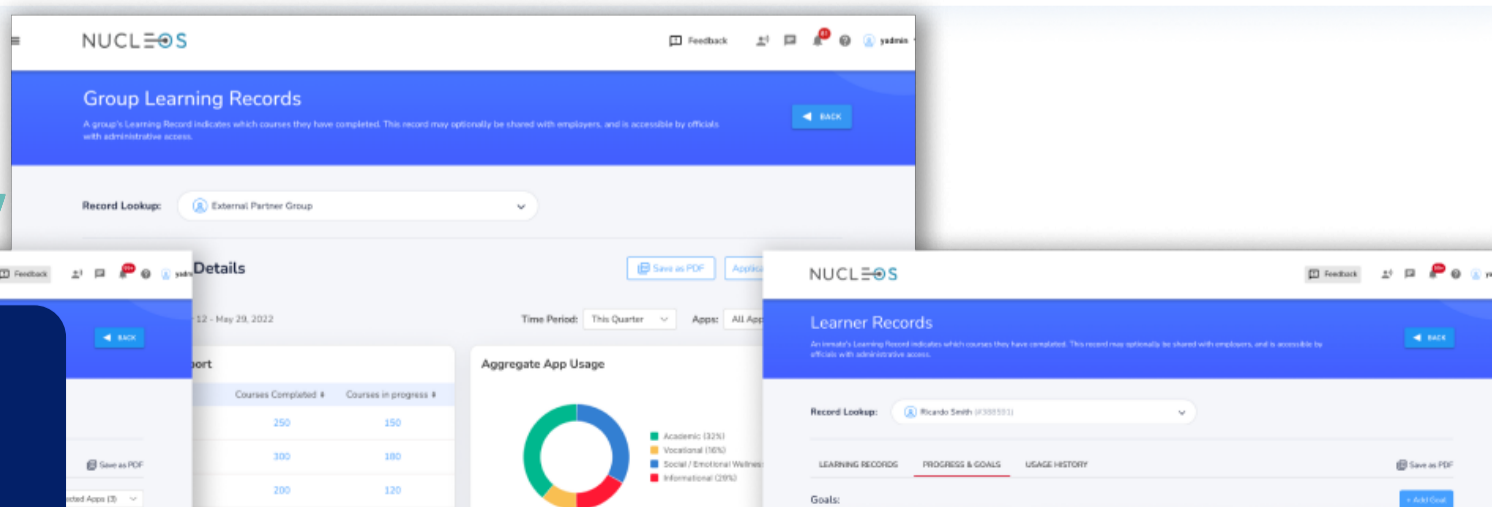

- We start by meeting with correctional staff to see your current education programs and discuss your needs.
- The insights we gain guide us in recommending additional valuable programs for learning solutions tailored to your users.

Program Integration

- Our library of current programs is made available for your staff and users
- Nucleos offers a unique approach to complex learner engagement and management with 100's of partners or Bring Your Own Content & Apps

Unified Security, Content Control & Reporting

- Visualize and act on in-depth learning data to improve program results with consolidated reporting across all learning platforms
- Streamline education management with centralized, cross-platform insights and security tools.

Why a DXP?

Nucleos **Achieve DXP** is a Digital Experience Platform (DXP) for education, with features tailored for secure agencies

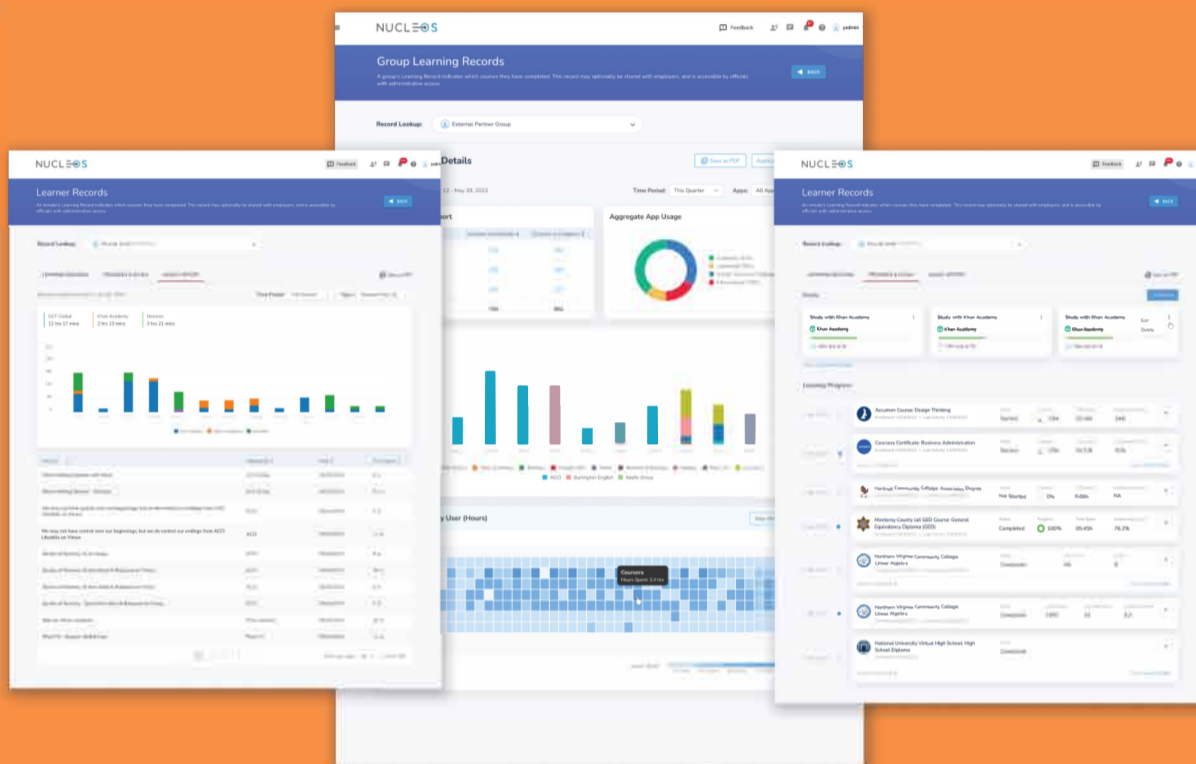

Account management
Simplify use with unified passwords and SSO features

Security and compliance
Ensure secure delivery and monitoring of all content

Outcomes management
Track engagement and outcomes to improve data-driven decision making

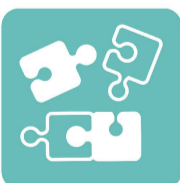

Nucleos revolutionizes education and workforce development for correctional agencies by offering a single digital experience platform. Most agencies with two or more learning management systems or multiple digital services can benefit from a digital experience platform.

Why Nucleos?

- Reliable, field-proven technology for seamless and secure learning experiences.
- Deep industry expertise through partners with decades of experience
- A fresh, creative approach to every educational challenge.
- Committed to societal impact and your outcomes as a Public Benefit Company.

Nucleos App and Partner Network

Leverage our network of premium app and content partners to enrich your educational offerings and drive transformative results, or bring your own. Achieve integrates any web apps.
